JCMU Programs

Summer 2024, Academic Year 2024-25, Spring 2025

The Japan Center for Michigan Universities (JCMU) is a product of the strong sister-state relationship between the State of Michigan and Shiga Prefecture. The center is located on the shore of Lake Biwa in the City of Hikone, Shiga Prefecture, Japan. JCMU programs are dedicated to building relationships between Japanese, Americans, and other nationalities through active learning and participation in language study, culture, family life, and society. JCMU has been welcoming students of all majors since 1989, and no prior Japanese language is required to participate in any of our programs.
